WILLIAM M. PATTEN,
Town Treasurer.

BEDFORD, March 1, 1887.

REPORT OF THE SCHOOL BOARD

For the Year ending March 1, 1887.

The closing of the school year makes it our duty to present to the citizens of the town our report and to tell as near as we may be able the progress the schools have made and their present condition. Also, being the first year of management under the new system, to tell how we have organized and attended to our duties.

On March 22, 1886, the members of the School Board met and organized by the choice of N. B. Hull as President, A. W. Holbrook, Secretary, and Charles B. Beal, Treasurer. The different duties to be attended to were divided; Mr. Hull taking Nos. 1, 3, 4 and 6 to see to furnishing the fuel and all needed repairs. Mr. Beal, Nos. 2, 5 and 9; Mr. Holbrook, Nos. 7, 8 and 10; Mr. Holbrook took Nos. 1, 6, 7, 8 and 10 to visit and for special supervision; Mr. Beal took Nos. 2, 3, 4, 5 and 9. And aside from these special visits each have visited the other schools during the year. Mr. Beal has purchased all supplies. All teachers have been elected by the full Board.

We abolished the school in the Union district (No. 10.) as there was but one scholar there whom we have had carried to No. 1 at a cost of $1 per week and $25.60 for the year.

For convenience we have changed the Joppa school to No. 10.

Ten schools have been supported and three terms have been held in each; Spring term, 10 weeks, Fall term, 9 weeks and Winter term 10 weeks, making 29 weeks for the year, which will average as many weeks as the preceding year. They are generally in a good condition and have made good progress. In some we have noticed decided improvement in instruction and discipline. Others have not been quite up to the standard we would like. The failure of parents to co-operate with teachers is a barrier to good discipline and their readiness to accept the colored statements made by children concerning the teacher's inefficiency or partiality creates discord in the school and therfore injures its usefulness. We have had but few complaints and have not been called to settle any case of discipline.

In No. 2 the spring term was badly broken up by the sickness of Miss Gonzales who was obliged to give up the school. But for the fall and winter terms we were fortunate in getting

excellent teachers and the lost ground was recovered. In No. 8, Miss Mason was unable to teach the last week of the winter term on account of the serious illness of a parent; Miss Dickey completed the term.

Nineteen different teachers have been employed and in but three schools the same teacher has remained during the year. One, Miss Dickey, has taught through the year, but in different schools. It has been our misfortune to have many changes and some of the best teachers we have been unable to retain. We were disappointed in losing the services of Misses Prince, Gould and Whipple.

Five of the teachers have taught for the first time and some have been very successful. Others have had large experience. They have labored hard for the success of their schools but of course with different results. In our opinion not one has labored merely for the money, but all have tried to do their best. We have been satisfied with their work with but a few exceptions. We have secured the best teachers we could, and, taking into consideration that we were acquainted with but few, have been in a measure successful in our efforts. All have shown a willingness to accept all suggestions offered by members of the Board for the management of the schools and their relations with the members have all been very pleasant We believe in retaining the old teachers as far as satisfactory the coming year.

Only a few of the registers have been fully and correctly made out. We would request all teachers the coming year to be very careful in keeping them, as they contain full directions, and we shall not accept them until properly made out as required by law.

The attendance has not been what it should be, and for the winter term has been very poor, owing to sickness and bad travelling, but these are not the only reasons for absences and we would request the parents to require of their children regular attendance at school unless sickness prevents. The loss to a child by absence is not to that one alone but to the whole school. The whole number of scholars registered are 226; of these 125 are boys; 101 are girls. The number between the ages of 5 and 15 are 206.

It has been thought by some that we should have consolidated some of the schools, but, believing it strongly against the wishes of those who would be interested, have attempted nothing of the kind.

No changes have been made in the regular text books. We have introduced Harper's Copy Book for writing as we regard it as better than the one that has been in use. It has been furnished for ten cents, which is at less cost. Its author, Mr. Shaylor, is one of the best penmen in the country, and the system is the Spencerian.

There has been no abuse of the school buildings, and with the exception of the usual damage from use they are in about the same condition as last spring. We have expended only what has been actually needed for repairs, amounting to $15.17. The coming year greater repairs will probably be needed.

We would recommend that the town raise $600 or more extra school money, instead of $500 as heretofore.

It appears from the treasurer's report that the whole amount expended for teachers, fuel, repairs and other necessary expenditures is $2037.82, an average of $9.02 per scholar.

The whole amount appropriated by the town, $2073.33, leaving a balance of $35.51 unexpended.

We entered upon our duties at the beginning of the year with but a little knowledge of the schools, in fact, our duties were almost wholly new to us. It being the first year of the new school system and a majority of the people being against the change, it has been somewhat harder for us to discharge our duties acceptably but we have endeavored to do what we thought for the best and to maintain the standing of the schools. The town system has been upon trial for one year, and it is for the people to judge whether there is any improvement as compared with the old. We think as far as we can judge, the schools will compare favorably with those of former years, and hope in the future they may attain a still higher standing. We have endeavored to spend the money as economically as possibly, and have furnished the schools with the best teachers we could. We may have sometimes made mistakes, as the best are liable to do; and if we have not satisfied the people in some respects, they must set it down as a lack of knowledge or judgment.

Following will be found tables and Roll of Honor, also the treasurer's report.

Respectfully submitted,

NATHANIEL B. HULL,
CHARLES B. BEAL,
ARTHUR W. HOLBROOK.

School Board.

ROLL OF HONOR.

District No. 1.

Spring. Frank Barnard, Annie B. Conrey.

Fall. Frank Barnard, Harry Barnard.

Winter. Frank Barnard, Harry Barnard, Jennie L. Shepard, Warren N. Cutler, Milton B. George, Herman A. Jones.

		$2,073 33

Cr.

By received of W. M. Patten, Town Treasurer.

Whole amount of school money for 1886. ..... $2,073 33

Respectfully submitted,

CHAS. B. BEAL,

Bedford, N. H., Feb. 21, 1887. *Treasurer.*

This certifies that we have examined the accounts of the Treasurer of the School Board of this town for years 1886–7, and find the same correctly cast and properly vouched.

GEORGE H. WIGGIN,
JASPER P. GEORGE,
Auditors.
